Special Election **April 21st**
Early Voting Begins **March 6th**

Free and fair elections are the cornerstone of our democracy — and right now, they're under attack. Across the country, politicians are rigging congressional maps to protect their own power and silence voters. Virginia has a chance to level the playing field and restore fairness. (VAFE)

FIGHT BACK Vote YES

Virginia Redistricting Amendment

Donald Trump is rigging the upcoming midterm elections to lock in his power - demanding that Red states redistrict to ensure more Republican seats in Congress.

Virginia is fighting back.

Governor Spanberger and the General Assembly placed our redistricting amendment on the ballot to protect Virginia voters and the country.

Working families are facing economic strain, rising health care costs, and weakened public services. Our communities are being terrorized by ICE.

The 2026 congressional election may be the only meaningful check on the MAGA agenda.

March 6 - April 18

Times & Locations

“When the balance of power in Washington is manipulated before a single ballot is cast to benefit this president, doing nothing is not neutrality. It is surrendering the voice of Virginians to decisions made elsewhere.”

**United States Representatives:
Scott; McClellan; Beyer; Subramanyam; Vindman; Walkinshaw**

THOUGHTS ON REDISTRICTING...

We recognize that some voters are unsure about the Redistricting Amendment. And yes, most of us strongly oppose gerrymandering. However, please keep in mind:

DEMOCRACY is on the Line

- This is not just about your individual congressional district.
- This is not just about the Commonwealth of Virginia.
- This is about protecting our nation's democracy.
- This is about ensuring that free and fair elections continue.

We Are LEVELLING THE PLAYING FIELD

Across the country, extreme partisan actors have manipulated district lines to entrench power - without a say by the voters in those districts. We cannot afford to sit on our hands while others play by a different set of rules. This Redistricting Amendment is simply leveling the playing field.

TEMPORARY Measure for Unusual Times - Expires 2030
It puts the decision where it belongs - in the hands of the voters. Unlike partisan gerrymandering elsewhere, this process is transparent and accountable to the people.

For far too long, we have expressed frustration about complacency from our elected officials. In November 2025, Virginians elected representatives who pledged to fight for our values and our needs - to protect our rights, strengthen our communities, and ensure that every family has a fair shot at opportunity and security - and that is exactly what they are doing.
