

Ensure our Freedoms

√YES

Repro Freedom

**Ensures
access to reproductive
health care.**

Virginia stands alone in the South—the only southern state with abortion access after 12 weeks.

This amendment will protect everyone's freedom to make personal decisions about their reproductive health care—including access to contraception, IVF, miscarriage care, abortion (through the 2nd trimester), and will protect providers who deliver that care.

√YES

Marriage Equality

**Protects
the freedom to marry
who you love.**

The freedom to build a life, raise a family, and love who you love.

The Marriage Equality Amendment will remove an outdated ban from our state constitution and ensure that two adults may marry regardless of sex, gender, or race.

This will give every Virginian the same rights, protections, and dignity—no matter who they are or who they love.

√YES

Voting Rights

**Restores
the right to vote
after serving time.**

300K eligible voters in Virginia are disenfranchised.

Currently, Virginians convicted of a felony automatically lose their right to vote, even after they've served their time. This amendment will restore those rights automatically upon release.

After serving their time, all returning citizens deserve to be welcomed and fully reintegrated into society, including having the right to vote.
